

Amendments to the Claims

Claim 20 (currently amended): A method for directing the beam pattern of at least one light emitting diode, comprising the steps of: placing at least one a primary lens in the beam path of each of said light emitting diodes.

Claim 21 (original): The method of claim 20, further comprising the steps of: placing a zoom lens in a directed beam pattern from said at least one primary lense and varying the distance between said at least one primary lens and said zoom lens to focus the beam pattern of said light emitting diode.
